You're gone, and I don't wanna know, what went wrong,  
no.

Cause somewhere the words have really helped me  
sleep.

And honest, the tongue that tells me how you mean.

Is anyone out there? It feels like holding on.

Is anyone out there? yeah, yeah.

And I was scared to lose you, and now I'm fine without  
you.

Just see if I'd, just see if I flinch.

How does it feel? How does it feel? How does it feel to  
know you're on your own?

On your own, own, without me on your own.

And I filled the space you left with something else,  
more real.

The smile you faked made me stay.

Is anyone out there? It feels like somethings wrong.

Is anyone out there? yeah, yeah.

And I was scared to lose you, but now I'm fine without  
you.

Just see if I've, just see if I flinch.

How does it feel? How does it feel? How does it feel to  
know you're on your own?

On your own, own, without me on your own.

And it's a long road without you.

But it's the right way to move on.

And it's a long way to the top of nothin', yeah.

But, if you feel the lovin, you're halfway there

How does it feel? How does it feel? How does it feel to  
know you're on your own?

On your own, own, without me on your,

Feel, how does it feel, how does it feel to know you're  
on your own.

(Feel, Feel, Feel)

So look the way your lips... you're the only one I know  
that likes to play it all alone  
So low, you get so low  
I just want to be there when you're everywhere,  
disappear  
In the back of my mind, I find that I'm fine, I'm fine, and  
I'm finally all right  
Alone and you'll be alone, there's never gonna be a  
time when you will find your peace of mind

(Feel, Feel, Feel)
