

Justin Townes Earle "Here We Go Again"

Visit "[Here We Go Again](#)" on MotoLyrics.com

Just when I found a way to take the nights alone
Just when I'd lost the need to have someone to hold me
I saw you standing there across the room
From me and I said here we go, here we go again

Now I like to think that I'm no fool in love
I can't help but feel as though I play one every time
But what with your eyes of blue is a man to do but fall
at first glance
Say here we go, here we go again

Now you could just walk away
And make this easier on the both of us
But I can see it in your face
Your mind's already made up

And so you cross the room and I'll never forget
The way you moved just like a whisper in the wind
And as you drew close to me you gently reached out
and took my hand
Said here we go, here we go again
Here we go, here we go again
