I know that my thinking is hazy
From standing in this light
And my girlfriends think I am crazy
They could be right

I see a proposition heading my way
Feel myself planning what I will say
I know tomorrow seems unsteady
Tell tonight to just get ready

(Live it up) How would you like to be
(Live it up) My new reality?
(Live it up) Just leave it all to me
We can live it up tonight
(Live it up) If this is make-believe
(Live it up) Don't stop until I leave
(live it up) And make the most of me
We can live it up tonight

So we make ou moves
Educating the eyes
No problems picking a partner;
You're just my size

I edge a little closer, stepping in time
Makes me feel special knowing you're mine
I chance a motion, hold it steady
Never before felt so heady,

(Live it up) How would you like to be
(Live it up) My new reality?
(Live it up) Just leave it all to me
We can live it up tonight
(Live it up) If this is make-believe
(Live it up) Don't stop until I leave
(live it up) And make the most of me
We can live it up tonight

Only on this dancefloor
And only in this company
Fantasy takes flight,

My baby, open up to win the wishes,
Feel your body get the shivers,
Seize the moment, count spectators,
All be over seconds later

(Live it up) So you are gonna be
(Live it up) My new reality?
(Live it up) Just leave it all to me
We can live it up tonight
(Live it up) If this is make-believe
(Live it up) Don't stop until I leave
(live it up) And make the most of me
We can live it up tonight,
Tonight,
We can live it up tonight
