Well, I've been searching for a  
Way to write you down on my list  
But now I know what it's for  
It's not a resume or application form  
No you're not an asterik on my resume no more  
So now I'll write it down in case you need my help  
With singing all your words that raise my settled soul  
And now I know the risk was worth it all the while  
I just needed a way to see, to see you

Chorus:

And then I wake to find you in my tears  
Waited to feel you burn inside me all these years  
That's when I know, I know it all goes back to you  
'Cause you are the best that I could do  
It's hard to find something clear  
When you're surrounded by clouded minds  
It's better to know yourself with what little you find  
All, all on your own than to  
Find yourself with what little they know  
So now I'll write it down in case you need my help  
With singing all your words that raise my settled soul  
And now I know the risk was worth it all the while  
I just needed a way to see, to see you

Chorus

One more day  
One more day to show them  
One more day  
One more day to show that I'm not fazed  
And I won't wait not one more day  
Chorus
