"Only Love"

Visit "[Only Love](#)" on MotoLyrics.com

You know it's true
There's not much you can do
But just try and ride it through
And let love carry you

'Cause only love
Can bring you down
And only love
Brings you back around

Take this advice
These words from the wise
To know of love's sacrifice
Is a truth of living life

And only love
Can bring you down
And only love
Brings you back around

With every drop of life inside us
And every heart we've left behind us
Everywhere you'll find

It's only love
Only love
Only love
That brings you down

Only love
Only love
Only love
Brings you back around
