Sorry, I know I'm not supposed to say this,
But it's been killing me, so I'm about to say this.
But I see you girl up in the club, talking with her
boyfriend, think I'm in
Love.
He looking at me, I'm looking right back, but I'm
looking past him, she
Looking right back.
Like she wanna get freaky with K, I'm off the patron so
I'm like "okay"
Plus she rocking him fresh Fendis that I like, walk like I
like, talk like
I like.
My body gets me in the VIP, close to him means close
to she.
I know who I am and I'm not confused, but tonight she
make me wish I was a
Dude.

I like your girlfriend and I think she's feeling me, too.
I like your girlfriend, even though you think I'm talking
about you.
I like your girlfriend, I know why we caught each other's
eye.
I like your girlfriend, girlfriend, girlfriend, girlfriend.

One more shot out of this shit that I'm drinking and I
will be all up in
Her ear singing
But you don't know what I'd be thinking, but I know she
thinking what I be
Thinking.
Shots with your boys, while your girl is dancing,
All up on me, man your girl is dancing.

Caught you in my eye, like fuck them guys,
A crazy connection and I don't know why.
My body gets me in the VIP,
Close to him means close to she.
I know who I am and I'm not confused,
But tonight you make me wish I was a dude.

I like your girlfriend and I think she's feeling me, too.
I like your girlfriend, even though you think I'm talking
about you.
I like your girlfriend, I know why we caught each other's
eye.
I like your girlfriend, girlfriend, girlfriend, girlfriend.

If you found love in the club, put your drinks up
If you're looking good and don't give a what, put your
drinks up.

I'm feeling real good, feeling sexy tonight,
Switch it up a little or I make you shy
She all on me and it feel so right,
I'm just might tonight.

I like your girlfriend and I think she's feeling me, too.
I like your girlfriend, even though you think I'm talking
about you.
I like your girlfriend, I know why we caught each other's
eye.
I like your girlfriend, girlfriend, girlfriend, girlfriend.
