You say u found love and I believed every word that
you said
you said that you found all this in me
I'm the one you couldn't get out your head
But now i know its a lie (Oh Why)
Could of had me so (But now i know the truth your so
cold)
I can see (clearly)
The first thing you lied about was how you felt about
me

I let you interrupt my life because you said we build
everything off of trust
But now your a liar and my heart denies ya
I don't understand why you're calling

I guess now the sky is falling, falling
When you lie you must think of me
I Guess now the sky is falling, falling
Enough is enough,
Cause i Know this ain't love

(spoken)
The Sky is falling (3x)

I wake up, hoping that everything was a dream but
you're not right here next to me,
now i realize i made you leave
now i know i did it right (oh why)

your lies was so bold (But now i know the truth your so
cold)
I can see (clearly) Everything you lied about I just cant
believe

(Chorus)

I let you interrupt my life because you said we would
build everything off of trust
But now your a liar and my heart denies ya
I don't understand why you're calling

I guess now the sky is falling, falling
When you lie you must think of me
I Guess now the sky is falling, falling
Enough is enough,
Cause i Know this ain't love

(Bridge)

My heart cant afford to listen anymore..
Cause once i believe thats what im riding for,
Cause I cant ignore, all the pain I endure..
I wont take the lying, im tired of crying, I'm tired of
hoping,tired of waiting, I'm tired of trying,I'm tired of
losing
I give it to you and what did you do,
you twisted the truth

(chorus)
