"(L.O.V.E, L.O.V.E, L.O.V.E, L.O.V.E)

There is one thing that's always on my mind
shining so brightly in the velvet sky
It's the way that I hope it could always be,
you're my little piece of heaven
You're the only one who has got this far,
You're my shining star and it's really bizarre
It's the way that I hope it could always be
You're my little piece of heaven

It's a little piece of heaven
It's a little piece of heaven
You're my little piece of heaven
It's a little piece of heaven

It's a little piece of heaven
It's a little piece of heaven
You're my little piece of heaven
It's a little piece of heaven
Shine on me

It's a little piece of heaven

It's a little piece of heaven
Shine on me

It's a little piece of heaven
There's no gravity tonight
There's just this racing sunlight
You're my little piece of heaven
It's the only way I want it to be
Shine on me
It's a little piece of heaven
There's no gravity tonight (It's a little piece of heaven)
There's just this racing sunlight (You're my little piece
of heaven)
You're my little piece of heaven
It's the only way I want it to be (Little piece of heaven)
Shine on
Shine on me"
