You say you're fed up with these lame players hollering
at you
Phylosophing what they got like they throwing it at you
These doers movie characters, they just actors
Playing games with your heart like the role they
practice.

And I know down deep inside you need more in your
life
That's why even before I get to sexing you I wanna
know what's right for you.

Don't wanna be too quick to hit the sheets with you
I ain't your average everyday switch your shit up
I really wanna take the time to ease your mind,
Wanna go

Beyond flesh, I really wanna get the chance to know
you
Baby, it's so fresh, you got class but ass is what
niggers go to.
And I wanna go. Beyond flesh,
I wanna go beyond your flesh.

You see, I ain't that kind of dude that be chasing them
chicken heads
I'm steady getting bread, but it's something special
about you.
I know you heard that line before, you study gas roads
beating down your door.
You could be the one, let me show you the best of both
worlds,
I'm a bad boy, a gentleman and I like it and I ain't like
them niggers is rolling.

Don't wanna be too quick to hit the sheets with you
I ain't your average everyday switch your shit up
I really wanna take the time to ease your mind,
Wanna go

Beyond flesh, I really wanna get the chance to know

you
Baby, it's so fresh, you got class but ass is what
niggers go to.
And I wanna goâ€¦. Beyond flesh,
I wanna go beyond your flesh.

Beyond flesh, I really wanna get the chance to know
you
Baby, it's so fresh, you got class but ass is what
niggers go to.
And I wanna goâ€¦. Beyond flesh,
I wanna go beyond your flesh.
Go...
