I tried to give up on love  
I've already hurt enough  
From girl to girl  
I just can't be alone  
Oh but what's the purpose  
Emotions make me nervous  
I can't afford this  
One's got a hold on me

I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love  
I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love  
I guess I'm taking a chance on you

Just sittin' here in my bed  
Thinkin' bout' the day we met  
You got me good oh (oh babe)  
Even though I act player-like  
You can tell I ain't' the playin' type  
In the middle of the night  
I dream of you oh

I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love  
I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love  
I guess I'm taking a chance on you

I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love  
I never would have thought  
That I'd be caught up again  
I'm so wrapped up in her love
