Oooh yeah

If I had to compare you to somethin
I couldn't put my mind on nothin
Oh, cause your the best thing that ever happened to
me

Noo, ooh whoa

It doesn't happen regularly
I just saw you walkin down the street
And I pulled over, I said 'Girl won't you get in my rover'
and

That was the first time I saw everyone in one (in one)
You're a million in one (one in a million)
That was the first time I saw everyone in one (in one)
You're a million in one (one in a million)

Yeah we argue and fuss sometimes
But always in the back of my mind I love you
And it's the realist hope you feel this love

Whooaa girl yeaah

Feels good to know you care
It feels good to know you're there for me
That was the first time

That was the first time I saw everyone in one (in one)
whooa
You're a million in one (one in a million)
That was the first time I saw everyone in one (in one)
yeaheah
You're a million in one (one in a million)
