You've been saying that you ready to settle down
Well baby girl I'm loving the way that sounds
Cause I don't wanna be a player no more
I've done it all before and now

I think I am ready for something a little more
All I ever needed is you
I don't wanna go away
I need you more everyday, yeah
Cause all I ever needed is you

Gotta keep it real
The way she makes me feel
I need her again
She's like the wind
I worry bout her
Whenever I call
My lover, my friend
She's like the wind

Gonna rock with us
Vibekingz gonna rock with ya

I can vision us growing old together
I never love these hoes but I can love you forever
If you give me a chance, I'll done hand your life
Just say the words, I'll upgrade you twice

I think I am ready for something a little more
All I ever needed is you
I don't wanna go away
I need you more everyday, yeah
Cause all I ever needed is you

Gotta keep it real
The way she makes me feel
I need her again
She's like the wind
I worry bout her
Whenever I call
My lover, my friend

She's like the wind

Can I catch ya, breezy
She's nice and easy
She knows how to please me
Only you

I gotta keep it real

Gotta keep it real
The way she makes me feel
I need her again
She's like the wind
I worry bout her
Whenever I call
My lover, my friend
She's like the wind

Gonna rock with us
Vibekingz gonna rock with ya

She's like the wind
