I'm only in town for the weekend,
And now we're cheating,
'cause they don't know.

Everywhere I go feels like Miami beach
In the summer, let the breeze settle
Your yellow skin pressed up against me.

Got my hands spinning like the ten speed,
Seductive, convincing.
Forget about your boyfriend, I'll forget about my girl.

I didn't expect to meet someone like you,
You didn't think I'd really ride with someone like you,
If I never see you again I'd like to share this memory
for the night.

Let me be your fantasy, for the night,
Make your dreams reality, for the night,
I take advantage of your body, for the night.

I'm only in town for the weekend,
And now we're cheating,
'cause they don't know.

I want you all on me
To the early morning,
'cause they don't know.

We're taking body shots,
Let the tequila led you down to your belly,
I'm on my R Kelly sheet tonight.

You must be used to me spending,
But I'm fucking you tonight.

I got a first class in the a.m.,
So, little mama, what you're saying?
Forget about your boyfriend, I'll forget about my girl,
She'll never know.

I didn't expect to meet someone like you,
You didn't think I'd really ride with someone like you,
If I never see you again I'd like to share this memory
for the night.

Let me be your fantasy, for the night,
Make your dreams reality, for the night,
I take advantage of your body, for the night.

I'm only in town for the weekend,
And now we're cheating,
'cause they don't know.

'cause I want you all on me
Till the early morning,
Cause they don't know.

I'm only in town for the weekend,
I'm only in town for the weekend,
I'm only in town for the weekend.
I'm only in town for the weekend,
I'm only in town for the weekend,
I'm only in town for the weekend.
'cause they don't know.
