"What Chu Came For"

Visit "[What Chu Came For](#)" on MotoLyrics.com

The music got it dancing like a go-go,
Put that thing in slo-mo,
You're in the club solo, tell me what you came for.
I know you don't wanna go home,
Let's get drunk and party all night long.

Bodies move like coco,
Frozing in my photos,
Yeah, I got my mojo,
I know what you came for.

I know you don't wanna go home,
Let's get drunk and party all night long.

Take to all this molly, I'll lick you like a lolly,
And then leave this party while everybody's watching.
Now I know that you are looking for a night that will last
for forever.

And we can switch it up, Lamborghini, 'rari,
Ducati, ready for the fast lane,
If you wanna, let your hair down.
Let's write our names in the sky,
Sexing on the car and smoke
And we ain't even lift for parking lot.

I learned that, I know you like it like this.
I learned that, you know I like it like this.
And while I'm squeezing on your booty don't forget to
take a bartender.

I know you came to the club to get it in, girl.
Don't be shy when you admit, let's get it in.
After a couple shots of vodka

And the music got it dancing like a go-go,
Put that thing in slo-mo,
You're in the club solo, tell me what you came for.
I know you don't wanna go home,
Let's get drunk and party all night long.

Bodies move like coco,
Frozing in my photos,
Yeah, I got my mojo,
I know what you came for.

I know you don't wanna go home,
Let's get drunk and party all night long.

Pop that pussy to the kick drum,
Come on, let me get some,
I think I found my victim, imma take you down.
And I know that you are looking for somebody
Who can make your head shake up.

And we can switch it up, Cali to a foreign place,
Vodka flight, popping bottles in the sky.
If you wanna, let your hair down.
She said "I don't usually do this"
But something tells me
Tonight imma be the one she break the rules with.

I know you like it like this,
I know you like it like that,
And while I'm squeezing on your booty don't forget to
get a bartender.

I know you came to the club to get it in, girl.
Don't be shy when you admit, let's get it in.
After a couple shots of vodka

And the music got it dancing like a go-go,
Put that thing in slo-mo,
You're in the club solo, tell me what you came for.
I know you don't wanna go home,
Let's get drunk and party all night long.

Bodies move like coco,
Frozing in my photos,
Yeah, I got my mojo,
I know what you came for.

I know you don't wanna go home,
Let's get drunk and party all night long.

I know what you came, I know what you came,
I know what you came, I know what you came for.
I know you don't wanna go home,
Let's get drunk and party all night long.
