Man,  
The moment I been waiting on  
And my soul is over flowing  
With anxieties and expectations  
I'm full of desires  
I just want it so bad  
You know  
And it just seem so real  
It's right there  
I just want reach out and touch it  
Before it all disappears

[Verse:]  
Sometimes  
It feels like  
Everything  
Is passin' me by  
Every now and then  
It feels like (feels like)  
My ship has gone and sailed away  
But I  
I gonna be strong (gotta be strong)  
Gotta hold on  
It won't be too long

[Chorus:]  
Now the tide is coming near  
I see the waves flowing  
Out there on the ocean  
I know my ship is coming in  
Just pass the horizon  
And right where the sky ends  
Cause out there on the ocean  
Know my ship is coming in  
But don't leave me hanging  
I've been waiting to long  
But this moment  
My ship has finally come

[Verse:]  
I would travel to the seven seas  
(I would even go)

I would even go wherever the wind blows me  
(I'll do anything)  
I'll do anything to find my destiny  
It's like fightin' with gravity  
And it's bringin' me down  
If this world was really round then tell me how  
It's just a moment for you to come around

[Chorus:]

Now the tide is coming near  
I see the waves flowing  
Out there on the ocean  
I know my ship is coming in (coming in baby)  
Just pass the horizon  
And right where the sky ends  
Cause out there on the ocean  
Know my ship is coming in  
But don't leave me hanging  
I've been waiting to long  
But this moment  
My ship has finally come

[Bridge:]

Finally you come (around)  
Around, around  
I said finally baby

Finally you come (around)  
Around, around

Finally you come around, come around baby

Finally you  
Finally you come

Said finally you come around (around)

Now the tide is coming near (now the tide is coming in)  
I see the waves flowing  
Out there on the ocean  
I know my ship is coming in (and I know my ship is  
coming in baby)  
Just pass the horizon  
(And where) And right where the sky ends  
Cause out there on the ocean  
I know, I know, I know, I know, I know, I know, is coming  
in  
Been waiting to long  
But this moment  
My ship has finally come

Finally you come (around)  
Around, around [till fade]
