Take a closer look at the eyes you see
They're tired of always watching me inside
I will carry you tonight
On the outside I'm this concrete wall
On the outside I'm all rock&roll;
Well I tell you under bass and tone
I'm a whole lot smaller than a pebble stone and

I get up but I keep on falling
I could shout but I keep it all in
I hope that that's alright
I will carry you tonight

Take a look at the face you hold
There's a whole lot of fire but it's really cold inside
I will carry you tonight
On the outside I am 1 2 3
I am bigger than a galaxy but
Later I'll be driving home
And I'll wonder what I'm doing here and

I get up but I keep on falling
I could shout but I keep it all in
I hope that that's alright
I will carry you tonight

I get up but I keep on falling
I could shout but I keep it all in
I hope that that's alright
I will carry you tonight
