Sometimes I feel so alone, baby  
I call your heart but there's no one at home  
taking a toll on my pride, pride  
I'm reaching out but there's no one inside

You know it doesn't feel right  
when I look in your eyes  
I know love is blind  
but the heart doesn't lie  
I'll ask one more time  
maybe this time you'll try  
so tell me girl what's deep in your heart(yeah)

Girl, I care about you  
I'm there for you  
so why don't you care for me  
like I care bout you(oh girl)  
Girl, I care about you  
I'm there for you  
so why don't you care for me(baby)  
like I care bout you

I spend like all of my days, baby  
trying to 'cess out just how things got this way  
I thought that we were in love  
but I swear right now  
I don't know what you want

I'll make sure that I  
give you quality time  
but lately I feel, you're not home by design  
but still I'm gonna try  
to give you the love of my life  
in hopes that you  
that you will open up your heart, baby  
Girl, I care about you(yeah)  
I'm there for you  
can I get a witness right now

so why don't you care for me(yeah yeah yeah)  
like I care 'bout you(baby baby, ohhhhhh, baby)  
girl, I care about you(woo, yeah)  
I'm there for you(ooh yeah)  
so why don't you care for me(yeah yeah yeah yeah)  
like I care 'bout you

Sometimes, sometimes I'm not  
I'm not sure that  
I'm all you've got  
that I'm all you got  
sometimes I'm not sure  
sometimes I'm not sure you love me or not baby

Just one thing that I'm certain of  
girl, I care for you  
and the one that I want is that you  
care for me, too

Girl, I care about you  
I'm there for you  
I wonder if you care for me  
so why don't you care for me  
eh, do you care for me, baby, ooh  
like I care 'bout you(baby baby baby baby)  
Girl, I care about you(why why why why why why yeah)  
I'm there for you(ohh no, baby)  
so why don't you care for me  
tell me why dont you care  
like I care 'bout you  
why don't you care for me baby  
baby baby baby baby baby baby baby, yeah, oh yeah,  
oh yeah  
I care for you, babe
