Sometimes the way we look at life can be too serious  
Cuz were dancin by the pale moon light  
I wake up in the morning and I get delerious  
Cuz of something that I did last night  
But then the neighbor came on to me  
She said that life is more than we see  
You've got to be the change that should be  
So dont die, just try....  
Were just some fool with the light song  
Open your gun in two  
And turn in up the moon  
I play it cool till the night is over  
When are you comin back  
To save this heart of mine  
Time to take it slow  
Black ice, white snow  
What if the truth is we dont really know  
If so then life is a mystery  
this could be then end of all history  
but wait the sun rises in the east  
And the world still spins 360 degrees on its axis  
This isnt the galactic practice  
of rhymin, cruises no beginning of ending of timing  
reminds like the sun to take your back off the wall  
People in the party in the light game show  
once again be dummin down the e's off the globe  
once a definition of this thing called black  
I had a preminition 18 way back  
That black is the color of the universe from whence we  
came  
I wonder if my soul is on ice again  
Who put the light song open your gun in two  
And turn in up the moon  
I play it cool till the night is over  
When are you comin back  
to save this heart of mine
