[Intro]

We've just landed  
Alright send a search party out  
Duh, don't get caught up on this planet man  
These humans are crazy  
Just don't even show them your microphone  
Cause then you know what?  
They wanna give you a record deal and then  
You end up dead you know what I mean?  
It's like body snatchers  
But you know what?  
We love hip hop  
Stop, please stop please  
Okay here we go

[Verse 1]

Holding my raps  
Olden is golden and black  
Extoling virtues of rap  
With monkeys riding my back  
I see them falling  
Doing commercials and balling  
I'm not a hater but she's closing the gate  
And we stalling  
Woke up in the early morning  
I heard a voice that showed me the things to come  
And told me I had a choice  
To build it 300 cubits by 50 cubits  
\*Drinking\* thinking I'm stupid but deep in my heart I  
knew it  
Money and fame could lead to emcee murder  
You think you can escape but you can't take it any  
further  
You call it writer's block  
But you stop cause the vine is empty  
Hip hop's not dead, it's really the mind of the emcee

[Hook]

It's all around me  
It's emcee murder  
Though God has found me  
I thought I heard the

Sound of a thousand angels  
It's the sound of danger  
Know myself but I'm still a stranger  
Emcee murder, emcee murder (oh)

[Verse 2]

I'll be damned if I do  
And damned if I don't  
My soul won't allow me to fake on the phone  
Rocking the chrome  
Another seed gets sown  
Anonymous, I'm hailin' from parts that's unknown  
I looked to the heavens above to spread love  
But emcees keep faking hoping to make the bacon  
Matters mistaken, cause who we are is not physical  
Very mystical with the mind non typical  
But, they want the cash flow  
They steady scheming for the number one spot  
These emcees they won't last though  
I really feel somebody's watching me  
From the third the star and telling us who we are  
In this universe we like a speck of dust  
You can't expect to trust man is living for the lust  
Everbody wants the eye in the sky to come and save us  
But maybe, the planet itself will terminate us with the
