

## K-OS "EXIT (Call Me)"

Visit "[EXIT \(Call Me\)](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away  
Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away

Face the world my father told me  
That life is mystical, beautiful bliss-full  
Now, in troubled times, I find soul in reaching  
What I'm seeking seems so far  
Praise the world, my mother told me  
That life's mechanical, so tyrannical  
It blows my mind just what we'll be reaping  
And weeping so help us God

Never knew that I could be looking why  
Are so many breaking making castles of sand  
Every man wanna be the one, wanna be the one to be  
King for a day, but its slipping away  
And I'm happy most melodical things I say  
To release the pain and cease the rain  
In my brainstorm, I can't hide from inside  
Escape to the outside and I'll be flying away

Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away  
Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away

Never know, never know  
Whats right until you walking death  
Everyday is just a struggle  
We take till there's nothing left  
When I wake up pray that  
I can see the truth between the dark

For the rest that don't care  
This a message straight to your heart

Nothing you say now can turn me away  
I'm walking the path, never-let me a stray  
Many they hold mics I don't know what to say  
What's going on today?  
And you walk to fast on the broken glass  
On the smoking pass hoping that  
Worshiping the cash but it never lasts  
Won't you ask, what can we be?  
Can we be free? Where can we go?

Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away  
Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away

Call me  
Call me  
(If you wanna go)  
Call me  
(You can call me if you wanna go)  
Call me  
Call me  
Call me  
Call me  
Call me

Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away  
Call me  
(Call me)  
If you wanna go, we don't have to stay  
In a world that is slippin' away

Call me  
(Call me)  
If you wanna go
