[Drake - Verse 1]

Thought I'd never see the light of day
You can thank me later for the record
I don't even need it right away
I just really need it right away
So that I can lane switch
Trust anybody that I came with
They will be here when I aint rich
I-I-I swear, I know, they are in the boat I row
E'rrybody in it gotta paddle, muthaf-cker won't let go
I done made a hundred thousand dollars every season
I was on that show
I've been told I was next by a legendary that was on
Death Row
It's a secret, I'ma tell 'em, rappers only claiming they
get paid
I've been gettin love in the club ever since a nigga
came in underage
I just put Patron in the pineapple and I do the same with
lemonade
Let my money flow through the air, I can make it rain on
your parade
I can do it, I can do it and I know the rumours get
around
I'ma take my city to the top and then I'ma never let 'em
down
I'ma show a lot of people love, I'ma give 'em credit
where it's due
Anyone that got it I can do it, this the one I dedicate to
you

[Chorus]

I'm gon do what I want
Cause this life's made for living
You got to know nothings for sure
Faith in the stars
I'm gon do what I want
Cause this life's what I'm given
Gotta keep my faith in the dark clouds

[K-OS - Verse 2]

Cardiac arrest rap tag

Wait a sec, wait a minute, I've been in it from beginning
Spinnin' raps like my heart was a tape deck, yes
I've been on the block, freestyling, wylin' while I was a
yout'

Many wonder what the truth it, when the future's like a
tattoo

Gotta make haste while the sun shines

If you only live one time when the spaceships arrive
from the skies

I'll be flyin', I'm not lyin' I'm sublime in my alphah state

Let the heart palpitate

Let the soul just astroplane

Here's a secret, let me tell 'em

We're the ones that started rock n roll

Jimi Hendrix, Little Richard, platform shoes and an afro
comb

Me ET phone home, BET play my song

Had faith oh so long, that's why we both flowed on so

Ohhhhh, I'm like another message they sent on the
bottle

Now people knooooooow...

'Bout a freak of nature with a pen and paper

Can't escape in the ether if you got faith, yeah

See that

[Chorus]

I'm gon do what I want

Cause this life's made for living

You got to know nothings for sure

Faith in the stars

I'm gon do what I want

Cause this life's what I'm given

Gotta keep my faith in the dark clouds
