[Chemical Brothers]  
Just get yourself high (x5)

[K-OS]  
Hey (Echoing)

[Chemical Brothers]  
Dont rely on this to get you high  
Dont rely on us to get you high

[K-OS]  
Hey (Echoing)  
Wait  
Hold up  
Electrify  
Let the fire elect the high  
Connect the sky  
To the sense they blade keeps spinning  
All around the world  
And the world keeps sinning  
I been in a crazy situation  
Since I learned the art of watching patients  
Big shouts to the hip-hop nation  
Just dance for elation  
Yeah

[Chemical Brothers]  
Don't rely on this to get you high  
Don't rely on us to get you high  
What you really lost  
Is it really lost  
What you really thought

[K-OS]  
Hey (Echoing)  
Yo  
Put the needle on the record  
Here we go again  
It's the brand new funk for real  
Mass appeal is everlasting  
I've seen you forecasting direction  
Insurrection is served on a 12 inch plater

Mostly correct data over matter  
Is a mind that you'll find  
Whos design is international  
Rational  
Back in the days we were trying to rap  
No gats in the backpack  
Yo caught many styles but the free one  
Instead of writing a rhyme I'd rather be one  
Two yo kiddy watch what you do  
I live in the (?) but believe they hold the fuse  
Now you got to get inside to get it off

[Chemical Brothers]  
What you really lost  
Is it really lost  
What you really thought

[K-OS]  
You don't know (x8)

[Chemical Brothers]  
Don't rely on us to get you high  
Don't rely on this to get you high  
Don't rely on us to get you high  
Don't rely on this to get you high  
Just get yourself high (x9)
