That's right, you're the one that looked at me and  
laughed right?  
You're that delicate face that leans against the window  
and cries.

Right now I'm following you who's sitting in the  
backseat of a car.  
I ran and ran for a long time.

I know it's such a short time but I could feel it.  
Those times when it was hard to live  
And you were worn out from your tears.

Don't cry again. When we meet again  
Be with someone better than me and  
Smile greatly in his embrace.  
Forget me.

Even if I say that it hurts to death,  
I can endure it now.  
Because I know how you who cried cause you hurt,  
feels, I'm happy.

Right now with puffy eyes and as you  
Bit your lip you worry about me.  
Don't.  
A smiling face suits you the best.  
I love you.

I love you to no end. Your one word that repeated over  
and over.  
I'll just remember those lips.

I know that we'll meet sometime or another.  
As we miss each other, like today our small chance of  
fate  
Is like a scene from a movie.

Don't cry again. When we meet again  
Be with someone better than me and  
Smile greatly in his embrace.  
Forget me.

Even if I say that it hurts to death,  
I can endure it now.  
Because I know how you, who cried cause you hurt,  
feels, I'm happy.

Promise me one thing.  
That only today that you've met me,  
That only for today you'll cry.  
And don't cry again.  
And forget me for forever.

Even if I say that it hurts to death,  
I can endure it now.  
Because I know how you who cried cause you hurt,  
feels, I'm happy.

### 03. Fragrance of Memory

Translation by: Jungie (also credit: aheeyah.com)

At the end of longing, you always have endless tears.  
Upon your withering shoulders, you cut your hair long.  
I wonder if you, who worries about me, knows.  
I should give everything to you, even my memories that  
have lost it's owner.  
So that even if you're left in the hillside where you  
wonder, you won't hurt.

That one person who made me live.  
How could I forget you?  
Because of you, I live another day today too.  
Even if I cry and hurt alot, I'm going to endure it.  
So that when you hear of my sad news from far away  
you won't cry.  
Forever.

Ontop the fine piano where you somtimes played for  
me  
Lies just the far away times that is like dust.  
To me who's being worn out from waiting, I wish for  
tomorrow not to come.  
My farsighted love that is looking for the blown away  
fragrance, is so poor.

In the picture that I haven't had the nerve to burn so  
many times,  
You are smiling.  
Next time, even the next time so that even your soul will  
not have to wander around again.

That's right, I can't just put away the many happenings.

Like my tears that sometimes tire, bury it all inside the  
name of memory.

In the name of love, bury all the things remembered  
over time and time again, everything so nothing will be

Left, all the things that will no longer be remembered.
