I should have not looked at you  
I should have lived in another world  
If I lived without knowing you  
I wouldn't have known this pain

Even though everyday I erase you  
Even though every day I throw you away  
My heart has already hidden you inside  
And is not willing to let go, calling that love...

I believed love was happiness  
Love that can't be spoken is a punishment from the  
heavens  
My heart hurts every time I love you  
Because you live, wiping away your tears

I have forgotten that you are my punishment  
My lips have forgotten you too  
I'm only scared that  
I might get drunk and tell you that I love you

I believed love was happiness  
Love that can't be spoken is a punishment from the  
heavens  
My heart hurts every time I love you  
Because you live, wiping away your tears

Should I love in my dreams  
As I cry and cry again  
And fall asleep in tears  
It's always the same after I wake up

I love you, I love you like this  
Without anyone knowing, at a place where you aren't  
there, I'll say I love you  
For the fear that you may run after hearing it  
I love you without anyone knowing it...

Crazy in love - jisun

I just said it just to laugh

Why can't you understand how I feel  
I promised, but I am crazily in love again  
It's so cruelly gripping my heart and shaking me

As I stand at the place where you left  
I still only look at you  
It hurts so, when will we  
Become strangers...

My heart doesn't stop  
Even if we said goodbye, we still loved each other  
It still seems like that now  
The pain doesn't wash away  
Even if I try to endure it  
It's so hard to live day by day without you  
You're my life...

.  
Words like I'm sorry and goodbye  
Why do you hurt me so  
I promised, but I am crazily in love again  
It's so cruelly gripping my heart and shaking me

As I stand at the place where you left  
I still only look at you  
It hurts so, when will we  
Become strangers...

My heart doesn't stop  
Even if we said goodbye, we still loved each other  
It still seems like that now  
The pain doesn't wash away  
Even if I try to endure it  
It's so hard to live day by day without you  
You're my life...

.  
You, you probably don't know  
The word "we" is slowly disappearing by your side  
Even if I promise again, my heart is so worn out  
That the word I love you  
Is starting to fade away

The pain doesn't wash away  
Even if I try to endure it  
It's so hard to live day by day without you  
You're my life...
