"Scales Of Leviathan"

Satanas Trismegistos
Threefold in iniquity
Behold a greater evil
From beyond the worlds of man
The waters of wrath revealed

In this spiritual winter
The scales become a sword
A great abomination
Now divides the greatest seas
Darkness seizeth the soul

Scales of Leviathan

Enter from all corners
With the weight of Saturn

Eater of the living
As the vultures eat the dead
Death conquers all!

Praised is the day
Gods turn to dust
Dawn of iconoclast...
Praised is the day
The kingdom's torn
For a crown of thorns...

Challenging the heavens
Taunting with it's might
Seven heads of darkness
In defiance of light

Scales of Leviathan
