You know a second is just a second  
Barely time to catch your breath I reckon  
But that's a long, long time to live without your love

You know a minute is just a minute  
There ain't many things a man can get done in it  
But that's a long, long time to live without your love

Every time you go away  
Seconds feel like days  
Feel like forever  
And the sun won't show its face  
Till the moment that we're back together

Oh darling the way I'm feeling  
I don't even want to waste an hour sleepin'  
Cause that's a long, long time to live without your love

You know a lifetime it ain't worth livin'  
Without you in it every second every minute  
Cause that's a long, long time  
Yeah that's a long, long time  
Hmm and you know that I  
Can't live without your love  
Hmm oh darlin'  
I can't live without your love  
Oh oh oh yeah
