I got lucky and I stumbled over something  
the one thing that I thought I'd never find  
well you're funny and you're pretty damn amazing  
goin crazy believin you're mine  
everybody sees it oh and everybody knows

we are the movie  
you know that scene  
the one that everybody watches and wishes they could  
be  
we are the music  
you know that tune  
that had us dancin in the rain last sunday afternoon  
those eyes those lips that kiss and this  
the greatest love song ever lived

seems like everywhere we go people watch us  
ain't it funny what a little love can do  
I hum around you, your hand in my pocket  
everybody wants to be me and you

i never used to get it  
but i get it with you

we are the movie  
you know that scene  
the one that everybody watches and wishes they could  
be  
we are the music  
you know that tune  
that had us dancin in the rain last sunday afternoon  
those eyes those lips that kiss and this  
the greatest love song ever lived

those eyes those lips that kiss and this  
that we would make a perfect fit  
we are the movie  
you know that scene  
the one that everybody watches and wishes they could  
be  
we are the music

you know that tune  
that had us dancin in the rain last sunday afternoon  
those eyes those lips that kiss and this  
the greatest love song ever lived

the greatest love song ever lived  
the greatest love song ever lived
