I thank the good Lord  
For sending you  
I believe in miracles  
Yeah now I do  
And I can't help but thinking  
Someone upstairs made a big blue  
But I gotta thank him  
For sending you

I can still remember the first night we met  
My mouth it wasn't working  
Neither was my head  
It must be intervention or it must be divine  
Could be kindness week  
Or it could be the wine

Now I pray that you will say yes tonight  
'Cause I'm gonna ask if you will be mine
