Lifetime Friends  
Left my home long ago  
To travel up the Tanami road  
So many young fellas were like me  
Head full of ideas and pretty keen  
I didn't think that anyone would  
Remember me for very long

Lifetime friends are with you 'till the end  
They're the ones that know you the best  
You laugh about how you were so young and proud  
You do that when you've made a lifetime friend  
Enough Said

Somehow through the years  
Some people that you meet stay near  
And even if you're far away  
They ring up just to say  
Well how are you goin'  
When you comin' back this way  
Enough said

Lifetime friends are with you 'till the end  
they're the ones that know you the best  
You can laugh about high  
You whiskey young and dry

you do that when you've made a Lifetime friend

I got a call from you this afternoon  
It's been years since I spoke to you  
We might have had our blues in the past  
But somehow our friendship seems to last  
We pick up the conversation  
Like we just left it yesterday  
Pretty good hey

Lifetime friends are with you 'till the end  
they're the ones that know you the best  
You can laugh about high  
You whiskey young and dry  
You do that when you've made a Lifetime friend

Lifetime friends are with you 'till the end  
they're the ones that know you the best  
You can laugh about high  
You whiskey young and dry  
You do that when you've made a Lifetime friend  
you do that when you've made a Lifetime friend
