Well, I've been sorta worried  
About Santa Claus this year  
'Cause we live way down south  
And it doesn't really snow down here  
Well, I'm a tellin' you not to worry  
'Cause I just got the word  
Everybody listen closely  
And I'll tell you what I heard

Santa's comin' on a surfboard  
Instead of his trusty sleigh  
He'll have a jet ski instead of reindeer  
Towin' him through the waves  
'Cause the weatherman had some problems  
He couldn't get snow you see  
Santa's comin' on a surfboard  
When he visits you and me

Well, Santa can't bring his reindeer  
He'll leave them far away  
But don't you worry 'bout him  
He's gonna be here Christmas Day  
He's got a big red surfboard  
With jingle bells and all  
There's gonna be a Merry Christmas  
Merry Christmas for all
