In dark hours still exist in mind  
you swallow up me like sacrifice they need  
binding my mind to a tree of fear  
bonded my body takes another life  
heated nectar makes it filthy  
the rose stained as it will  
obedience to pleasure of flesh  
where is my pride  
lust paralyzed me

Innocents, they rape as fire, lust in terror  
red desire strikes you to the heart with their dagger  
all you hope, all you love, all you wish are all I'll give  
you can take everything you require  
you are just chosen one, no need to fear  
you ought to know I'm the one, the scarlet messiah

Unawares, extreme pain has been the ultimate  
pleasure  
you've experienced ever bitter,  
but unforgettable sweet experience  
remember, remember your true spirit in the dark ages  
you were crucified with crimson cross and burned alive  
I can see your shroud of evil burning in cold flame  
ecstasy can call you back the spirit, you're reincarnated  
long time ago, you were the witch, remember ...  
Kill her, she is just wicked  
no longer, sinful creature, you  
inject the holy spirit  
deepen you into the crack of herself  
take out her womb to cut into pieces  
nip off the embryo  
to wipe out the root of witch

Do it... bitch  
no way ... death

To feel more peaceful, I wanna sleep in emptiness  
as I fall into darkness, I had a dream

Chasing the light of sacred life with crawling lust at my  
feet

endless pain, endless fear, faithless desires  
calling me into labyrinth, drifted me in the matters  
let me see, let me hear, let me feel true sense of life

You die for my sin, for my lie, for my fame  
I'll forgive your cursed karma  
I'm the illusion, possession, oppression  
you can't wake from the paranoid dream  
it is reality unavoidable  
owing the cross of sins to future in vain  
pace your way alone

I'm never the one  
behind the mask  
always staring myself  
in subconscious mind  
someone else smiles
