Can't stop thinking,
Can't stop thinking of you.
(It's automatic)
It's no use trying,
Boy, it's all I can do.
(It's automatic)

I see your face streaming in video.
(Can't stop thinking of you)
I hear your voice playing in stereo.
There you go - you're tuning into my radio.

Why do I feel the way I do
Every night when I turn out the light
And dream about us being alone?

Can't stop thinking,
Can't stop thinking of you.
(It's automatic)
It's no use trying,
Boy, it's all I can do.
(It's automatic)
Any place you're gonna be
That's the place I wanna be too.
(It's automatic)
Can't stop thinking,
Can't stop thinking of you.

I picture you riding in a limousine
(Can't stop thinking of you)
Taking me to somewhere that I've never been
Certified - you're my double platinum dream.

Don't understand no matter how hard I try
I get no piece of mind.
There's something that I want you to know...

Can't stop thinking,
Can't stop thinking of you.

(It's automatic)
It's no use trying,

Boy, it's all I can do.
(It's automatic)
Any place you're gonna be
That's the place I wanna be too.
(It's automatic)
Can't stop thinking,
Can't stop thinking of you.

I've got a secret I don't wanna keep to myself.
I've never felt quite like this way about anybody else.

Can't stop thinkin',
Can't stop thinkin; of you.

I Can't stop thinking,
Can't stop thinking of you.
(It's automatic)
It's no use trying,
Boy, it's all I can do.
(It's automatic)
Any place you're gonna be
That's the place I wanna be too.
(It's automatic)
Oh, I can't stop thinking,
Can't stop thinking of you.

Oh, I Can't stop thinking,
Can't stop thinking of you.
(No I can't stop, can't stop, can't stop)
(It's automatic)
It's no use trying,
Boy, it's all I can do.
(It's automatic)
Any place you're gonna be
That's the place I wanna be too.
(It's automatic)
Oh, I can't stop thinking,
Can't stop thinking of you
