I.

Your smile wipes my tears away
As I wish you here to stay
But time goes by very fast
Like a driver of an eight o'clock bus

II.

Every night and everyday
Before I sleep to God I pray
Thinking of you is a must
Like a diamond
It forever lasts
It forever lasts

III.

Girl I can't explain to you
This feelings that I've been thru
But if you just give me a chance
Till my last breath
My love will stand

IV.

And I will be here when you need me
When you're down I find my way
In the midst of circumstance
I will be here with a helping hand
You wil still be my only one
Coz you're always be
Coz you're always be
Coz you're always be
Here in my heart
My heart...

Repeat III and IV

My heart (3x)

Here in my heart
