I can't stop thinking about you
And how you...me so good
And every moment's a flashback
I can't stop thinking about you
Thinking about your love
I can't stop thinking about you
Flashback

It's the midnight hour and my
body's screaming for you love
Cause there ain't another woman
a lot better to please me than you
Than you
Thinking about the day
we couldn't separate
You wrapped my body
up in your legs
Your legs
When you felt the pulse of me all
inside your waist once it starts
You know I can't stop
this thing baby

(refrÃ£o 2x)
I can't stop thinking about you
And how you...me so good
And every moment's a flashback
I can't stop thinking about you
Thinking about your love
I can't stop thinking about you
Flashback

See that thing you do constantly
makes me daydream about you love
Your love
I'm hungry for you
Every minute, every hour my mind
goes back to that shower wit you
With you
Come with me and lay
Time now for a game

Body versus body, let's play
Let's play
Smiling from your toes all the way
up to your face once it starts
You know I can't stop this thing baby

(refrÃ£o 2x)

I can't stop thinking about you
And how you...me so good
And every moment's a flashback
I can't stop thinking about you
Thinking about your love
I can't stop thinking about you
Flashback

I never had a love that could make
me feel this way
Taking me back to another place
It's like another world
You girl

((refrÃ£o 2x)

I can't stop thinking about you
And how you...me so good
And every moment's a flashback
I can't stop thinking about you
Thinking about your love
I can't stop thinking about you
Flashback...
