[Verse 1:]

Never heard of your flavour
(I) Wonder how long it took to make ya
(I) Don't want nobody to pinch me
(I) Just wanna live in this dream
(Now all) Of a sudden I'm floating
(My) Mind secondness to the ocean
(And) I will lead the ways of not crashing
So jealous of the way we dancing (and oh)

Baby look up to the sky
Help me find a star
And will call it ours
Baby willing for the flight
We'll be gone till june
Feel the clouds will be some thousand miles away

[Chorus:]

You're my type of girl
You're out of this world
Let's run to the moon
Fly to the moon

You're my favorite girl
You're out of this world
Let's run to the moon (fly)
Fly to the moon

I'm caught up in your passion
What I gotta do to get to you boo
Let's run to the moon
Fly to the moon

See you're my type of girl
You're out of this world
Let's run to the moon
Fly to the moon

[Verse 2:]

Now baby just stop (stop) moving your body
Bout to make my heart stop (stop!...)
The stimulation is killing me

Do you like to travel
Can a girl like you handle
A long ride
Caus girl tonight
Will be going feel the motion

[Chorus:]

Baby look up to the sky
Help me find a star

And will call it ours
Baby willing for the flight
We\\'ll be gone till june
Feel the clouds will be some thousand miles away

You\\'re my type of girl
You\\'re out of this world
Let\\'s run to the moon
Fly to the moon

You\\'re my favorite girl
You\\'re out of this world
Let\\'s run to the moon (fly)
Fly to the moon

I\\'m caught up in your passion
What I gotta do to get to you boo
Let\\'s run to the moon
Fly to the moon

See you\\'re my type of girl
You\\'re out of this world

Fly to the moon

[Talking:]

What you mean you barely know me
It\\'s a long ride mammi
You\\'ll learn me on the way up (baby)
Stop looking at me crazy
I mean just think about it
What\\'s life if you ain\\'t going live
Yeah we can stay as long u want, you hear me?
Alright? Let\\'s go
