[Verse 1:]

We've been in love before  
And I know it'll take a man to make it work  
Now I'm ready to love you and only you trust me baby  
I've made you hurt before  
I'm ready to make right all the wrong I've done  
Wanna love you, and only you  
Why delay anything

[Chorus:]

I could be, I could be, I could be, I could be, I could be  
your lover, don't you want me (don't you want me), I  
can be your love isn't that what you need, why play  
games with one another, when I want you, you want me

[Verse 2:]

I know it's on your mind  
My actions to blame for you insecurity  
And I'm sorry baby please try to work with me (yeahh  
ohhh)  
Let's try to build on us  
I can't stand to be without and I'd rather be alone, then  
to start all over again (again) oooooohhhhhh

[Chorus x2]

[Verse 3:]

No matter, how long it takes  
So much, more to do  
All I want is you baby  
Cause it's been awhile, and your on my mind  
Want you to love me like I love you  
See me like I see you baby  
Want you to love me like I love you baby  
Love me like I love you OOHH!
