I'm grown babe give me what i need
you owe me we gone do it right tonight (gone do it right
tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)

Don't even put on the tv
I got your entertainment keep your eyes on me
I got a few tricks thats been on my mind
So try to keep up I'm going in tonight
We could start it nice and slow
But i had a long day so i wanna be told what to do
tonight
Baby put your focus right on my thighs

Lets put one in the air
Take your time show me you care
Baby take my shirt off, skirt off
Don't fall i want you to stand tall
I'm ready take your jeans off
Yeah i like your dirt

I'm grown babe give me what i need
You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)
I'm grown babe give me what i need
You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)

I know you got some goodies for me
Why you wanna play boy let my eyes see
You gotta take that off
Don't call the shots cuz you know I'm the boss baby oh
Imma put it right on, right up on the table
Take it like a last meal you better be able
See i want you to put all of your trust in me, all in me

I'm grown babe give me what i need

You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)
I'm grown babe give me what i need
You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)

Lets put one in the air
Take your time show me you care
Baby take my shirt off, skirt off
Don't fall i want you to stand tall
I'm ready take your jeans off
Yeah i like your dirt

I'm grown babe give me what i need
You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
(we gone do it right right we gone do it right)
I'm grown babe give me what i need
You owe me we gone do it right tonight (gone do it
right tonight)
We gone do it right tonight (we gone do it)
