[verse 1]

it's Casely

I'm tryna find you, tryna reach out to you girl

Oh, cuz I wrote you lettaz, I sent you e-mails

And I haven't heard back from you, Oh

When your not around I get so lonely for you baby

My life is just an open book

and when you read my lines of my mind

I'm hoping you take much more than a 2nd look

to find out what is inside

cuz it's more than just some silly rhyme

It's really more like my hearts bleeding words for a

1000x

[chorus]

the minutes feel like hours

the hours feel like days

I just can't concentrate

when your not around

the day moves oh so slow

when im at work I can't wait to go home

I walk down a lonely road

when your not around

[verse 2]

Remember when you always say

that with out you girl I'd be okay

oh but those words weren't true

girl no matter what you say I still need you

cuz I want you by my side

and if it's up to me it would be tonight

I'm just a man so in love reaching out

girl I need your touch

[chorus]

the minutes feel like hours

the hours feel like days

I just can't concentrate
when your not around
the day moves oh so slow
when im at work I can't wait to go home
I walk down a lonely road
when your not around

[bridge]

I just can't wait until the day
when you come back my way
girl I'm missing you
I, I cant stand the pain oh
I guess...I guess it's will take some time

[chorus]

the minutes feel like hours
the hours feel like days
I just can't concentrate
when your not around
the day moves oh so slow
when im at work I can't wait to go home
I walk down a lonely road
when your not around
