Baby why don't we sit back,
Just take the time to relax,
Let's leave the worries behind,
I'll be yours, baby be mine,
It's time to get in the groove,
Of things, there's no need to prove,
Them all wrong,
We know we belong...

(Together) you and I, we have got a love so strong,
And it's a mystery to you and me,
That they think we're so damn wrong,
(They think they're so clever)
When they don't even know what's going on,
Baby what they say don't mean a thing,
As long as we know we will be...

(Forever) we'll be together girl because we know,
That our love will last through good times or bad,
We know our love will always grow,
(Through any weather),
Let's stay together while they act like fools,
Baby they don't know, even this storm,
Can never get between me and you...

Baby why don't we sit back,
Just take the time to relax,
Let's leave the worries behind,
I'll be yours, baby be mine,
It's time to get in the groove,
Of things, there's no need to prove,
Them all wrong,
We know we belong...

(Together) let's take a trip far away from here,
To a world where we could be alone,
Because to me and you it's clear...
(That whatever)
We seem to do they'll always stop and stare,
Baby take my hand, they don't understand
That we don't even care about them baby...

We don't even care about them, baby, no
Keep it stronger, we can't go wrong
In the end they'll understand
And even if they don't, baby
It'll still be you and me, forever at last

Baby why don't we sit back,
Just take the time to relax,
Let's leave the worries behind,
I'll be yours, baby be mine,
It's time to get in the groove,
Of things, there's no need to prove,
Them all wrong,
We know we belong...

Together forever and ever (we'll be together, baby)
Together forever and ever (just you and me my lady)
Together forever and ever (we'll be together babe)
Together forever and ever (forever and ever)

Baby why don't we sit back,
Just take the time to relax,
Let's leave the worries behind,
I'll be yours, baby be mine,
It's time to get in the groove,
Of things, there's no need to prove,
Them all wrong,
We know we belong...
