I call you up tonight  
But girl we don't talk anymore  
Sometimes I fantasize  
That you would walk  
Right through the door  
When I wait you're not there  
Still I know that you still care

Something inside of me  
Tells me you want me (tells me that you want me)  
Tells me you need me, (tells me that you need me)  
Baby girl  
Something inside of me  
Tells me you need me  
Tells me you want me, Baby girl

How can I treat you right?  
When you let my heart  
Just slip away (slip away)  
So come and do me right  
And I'll be the sun that shines your way  
I'll be there for you, baby  
Now I know that this much is true baby

Something inside of me (oh)  
Tells me you want me (tells me you want me)  
Tells me you need me, (tells me you need me) Baby  
girl  
Something inside of me (something inside)  
Tells me you need me (tells me you need me)  
Tells me you want me, Baby girl (tells me you want me,  
baby)  
Something inside of me (something inside of me)  
Tells me you want me (tells me that you want me, baby)  
Tells me you need me (tells me that you need me,  
baby) Baby girl  
Something inside of me (something inside of me)  
Tells me you need me (tells me that you love me)  
Tells me you want me, Baby girl (Tell me oh, oh)

I spend my nights reading letters from you  
Going over and dawn in my mind

I give my heart just for one kiss from you  
'Cause I can't hide what's deep  
Down inside

Something inside of me  
Tells me you want me (just tell me you want me)  
Tells me you need me (just tell me you need me) Baby  
girl

Something inside of me  
Tells me you need me (just tell me that you want me)  
Tells me you want me (show me that you need me)  
Baby girl

Something inside of me  
Tells me you want me (A little something, something)  
Tells me you need me (A little something, something)  
Baby girl

Something inside of me  
Tells me you need me (A little something, something)  
Tells me you want me (A little something, something)  
Baby girl

Something inside of me  
Tells me you want me (A little something, something)  
Tells me you need me (A little something, something)  
Baby girl

Something inside of me  
Tells me you need me (A little something, something)  
Tells me you want me (A little something, something)  
Baby girl

Something inside of me  
Tells me you want me (A little something, something)  
Tells me you need me (A little something, something)  
Baby girl

Something inside of me  
Tells me you need me (A little something, something)  
Tells me you want me (A little something, something)  
Baby girl
