Listen carefully

As I introduce You to a world like no other  
A world far beyond your wildest imagination  
A place where your dreams come to life  
far away from the place where evolution is the key to  
your survival

Relax

As you drift deep into your own thoughts  
contemplate the reason you exist  
will the value of your triumph's today be worth the  
same tomorrow

Or

Will it self destruct and destroy the human race as you  
know it, will you control your life

Or

Will your life control you  
now follow me freely  
as i lead you to

MY OWN REALITY
