You told me that it's time to say goodbye  
i know your wrong we have to give this one more try  
i still believe that we were ment to be  
how can you say that you were over me why cant you see?  
we had forever wunce how could it be?  
forevers gone,lonliness found  
and there was no more you and me  
Dont say goodbye Just one more try  
Dont say goodbye just wait for me  
its my last chance to prove to you  
what i know is true we were ment to be  
Dont say goodbye just hold me tight  
dont say goodbye our love is real  
you dont mean the words you said  
that you need me too,dont leave me wifout you  
i know inside my heart was ment for yours  
how can you walked on by dont care to see me cry  
now that your gone i dont know how to say  
dont leave me all alone it doesnt have to end this way  
promises broken im torn apart

in peices now still holding on  
i cant beleive my world is gone  
Dont say goodbye Just one more try  
Dont say goodbye just wait for me  
its my last chance to prove to you  
what i know is true we were ment to be  
Dont say goodbye just hold me tight  
dont say goodbye our love is real  
you dont mean the words you said  
that you need me too, dont leave me wifout you  
(repeat)  
you still better be my only one  
why cant you just wait for me  
its my last chance to prove to you  
what i know is true me were ment to be  
Dont say goodbye just hold me tight  
dont say boodbye our love is true  
baby you dont mean the words you said that u need me  
to  
dont leave me wifout you
