"Vessels"

Those wending ships
That sailed in May
Vessels that carried me
From one place to the next

Were fated just for me
Oh they were fated just for me
In my time I've made mistakes
That made all of the difference

Each bough and plank
Each mast and sail
No matter how old
Or how decrepit

In my time I've made mistakes
That made all of the difference
Those vessels that brought me here
Have made all of the difference
Yes all of the difference
