### Verse 1

So many people out there living day by day without a single care in their way. And so many people out there don't care a lick about what the churches out there have to stick. Why can't they stop and see, there's a greater one than thee. But either way, idk. It's their prices they'll have to pay.

### Chorus

They'll have no late exceptions. When they are faced with the test it doesn't matter who's the best. It only matters if they accepted in their heart the one who will never depart. They can make any excuses they want to make but either way God will say, no late exceptions!

### Verse 2

So many people out there are just worried about the worth they can build up here on earth. And so many people out there don't care what's right from wrong or anything that's going on. What we need now is more than a revolution, but people can only come up with fake solutions. Why can't they stop and see, there's a greater one than thee. But either way, idk. It's their prices they'll have to pay.

### Verse 3

And then I will profess unto them, I never knew you, depart from me, ye that work iniquity.
