Stop don't move he's got a gun on you  
Halt he's armed, it's a military rule  
Don't be frightened don't be scared everything is fair

You will obey, it's what the people want  
Speak out of turn, well you just simply can't  
So you're equal and you share, everything is fair but

#### CHORUS

We are frayo  
We are frayo  
We are frayo

Work for the land, a much desired way  
You'd get more on Mars and probably better pay  
Don't be frightened don't be scared everything is fair  
Here the choice is ours, oh how lucky we are  
To decide for ourselves or wishing on a star  
So you're equal and you share everything is fair

We are frayo  
We are frayo  
We are frayo
