I've got this crush
My heart is in a rush
He's got the looks
And he loves to read books
So you know he's a keeper

He is the one
He is the one

I've got this crush
And it won't go away
I hope I get the courage
To talk to him one day

He's in two of my classes
I feel like a dork
Wearin my glasses
He looks over at me
And I have on the biggest smile you've ever seen

He is the one
He is the one

I've got this crush
And it won't go away
I hope I get the courage
To talk to him one day

I think that day has come
I've got a little bit of courage
I have some
Walk up to you and say hi
And the rest just flys by

I have this crush
He'll always be enough...
