"Laugh"

Visit "[Laugh](#)" on MotoLyrics.com

Think of the funniest song
That you can't help but sing along
The happy days won't ever go away
They're always here to stay
Laugh with your friends
Have some fun until the end

Forget all of the bad times
And write some songs that actually rhyme
Be the happiest that you can be
Then you will truly see

That you can laugh
Laugh at the stupidest things
Have some fun in your life
And just sing

Walk down the street
Just as happy as you can be
Go talk to that boy
That you always see...
Don't be afraid to be yourself
Trust me, this will help

Forget all of the bad times
And write some songs that actually rhyme
Be the happiest that you can be
Then you will truly see

That you can laugh
Laugh at the stupidest things
Have some fun in your life
And just sing
