Stars are shinning in your eyes  
And I begin to realise  
That our path through times unbroken

Do you know what it's like  
When a mirror never lies  
And the truth remains unspoken

And we dance into the fire  
'Cause our spirits take us higher

Do you feel me now  
Burning like a flame  
The gravity of love  
In the symphony of life

There's a place I've never been  
Where there's angels gathering  
And they talk about the future

And we dance into the fire  
'Cause our spirits take us higher

Do you feel me now  
Burning like a flame  
The gravity of love  
In the symphony of life

Fiire!!!!!!

Do you feel me now  
Burning like a flame  
If you touch me  
Then I may disappear  
Floating though your eyes  
How do we resist  
The gravity of love  
In the symphony of life

In the symphony of life
