(VERSE 1)

All my loving all at once  
I gave it all to you  
Jealous woman pull your punch  
Break my heart in two

(CHORUS 1)

Sit down  
Sit right down and shut your mouth  
Sit down (shut up!)  
Listen to me, I'm talking to you  
I said, sit down  
Sit right down and shut your mouth  
Sit down (shut up!)  
Listen to me I'm talking too

(BRIDGE)

You know how to hurt me badly  
You know how to hit me, hurt me, push me, punch me  
You know how to hurt me baby  
You know how to hit me, hurt me, push me, punch me

(MIDDLE)

Don't push your luck now lady  
Don't push your luck too far  
Your tongue is vicious maybe  
But my blow is burning fire

(VERSE 2)

Treasures all emotional  
Were buried in my soul  
You took your spade and dug them out  
And left me with the hole

(CHORUS 2)

So sit down  
Sit right down and shut your mouth  
  
Sit down (shut up!)  
Listen to me, I'm talking to you  
I said, sit down  
Sit right down and shut your mouth

Sit down (shut up!)  
Listen to me I'm talking too

(REPEAT BRIDGE)

You know how to hurt me badly  
You know how to hit me, hurt me, push me, punch me  
You know how to hurt me baby  
You know how to hit me, hurt me, push me, punch me

(REPEAT MIDDLE)

Don't push your luck now lady  
Don't push your luck too far  
Your tongue is vicious maybe  
But my blow is burning fire

(INSTRUMENTAL BREAK)

(REPEAT CHORUS TO END)

So sit down  
Sit right down and shut your mouth  
Sit down (shut up!)  
Listen to me, I'm talking to you  
I said, sit down  
Sit right down and shut your mouth  
Sit down (shut up!)  
Listen to me I'm talking to you  
I said, sit down  
Sit right down and shut your mouth  
Sit down (shut up! shut up! shut up! shut up!)
