You put a note in my pocket said, "Be good to yourself
"

And that was all

Life being what it is, we all dream of revenge
Open your eyes for a second just to roll them at me
I stared straight into the sun, something to concentrate
on

And if you turn it on you'd find I've written you a
thousand times
You would do anything, you'd give up everything for
God knows why

I just can't stay till you're gone, I won't wish you well
I won't see you off, I won't try to call if I see you in my
mind
I'll say to you it's not your fault

You said, "I'll see you in September", but that's not long
enough for me
You put a note in my pocket so it would take care of me
but that was all
